

FOCUS in the VM/CMS World

DN0700007.0093
156 pp.

U.S.: \$25.00
Canada: \$37.50

Many of the important aspects of designing, implementing, and maintaining FOCUS applications in VM/CMS are documented in this special edition. The 18 chapters include the following topics:

- Understanding VM and CMS
- Planning for FOCUS Application Building
- FOCUS Database Design

FOCUS in the MVS World

DN0700005.0093
173 pp.

U.S.: \$30.00
Canada: \$45.00

From an introduction to how FOCUS functions in the MVS environment to a discussion of performance tuning, this special edition is a valuable aid to end users and programmers alike. Chapters include the following topics:

- File Allocation
- Modifying FOCUS Defaults
- Performance Tuning
- The FOCUS Multi-Session Option
- Getting IBM TSO/ISPF and FOCUS to Work Together
- Plan Management for the FOCUS/DB2 Interface
- The EDA Server for MVS

FOCUS Systems Journal Encyclopedia Fall 1990

DN0700008.1090
82 pp.

U.S.: \$10.00
Canada: \$15.00

This particular issue of the *FOCUS Systems Journal Encyclopedia* replaces the *FOCUS Techniques, Aids to System Development* manual. The majority of techniques found in this Fall 1990 edition were originally published in the *FOCUS Techniques* manual.

In addition, users will benefit from many new FOCUS techniques written by various Information Builders' personnel and other FOCUS users.

FOCUS Getting Started

DN1000036.1085
100 pp.

U.S.: \$7.50
Canada: \$11.25

Provides an overview of basic FOCUS concepts: preparing a Master File Description, loading data, and actually producing reports for a sample business application.

FOCUS Report Writing Primer

DN1000021.0592
U.S.: \$17.50
Canada: \$26.25
240 pp.

This revised primer provides a streamlined introduction to FOCUS reporting customized for beginners. The interactive tutorial is designed to cover the six basic components of report writing:

- Data identification and retrieval
- Sorting
- Creating temporary fields to calculate new values
- Calculating totals
- Formatting and printing reports
- Screening

FOCUS Quick Reference Handbooks and Cards

These quick references, available singly or in packs of 10, summarize and illustrate basic FOCUS syntax.

Note: When ordering, please indicate the type and number of singles or packages desired.

Quick Reference Cards	Single	10 Packs
GRAPH	DN1001002.0491	DN1000040.0491
